

# How to play FamilyHistopoly

1. Each player selects a game piece.
2. All players receive the card that says ME.
3. All players start on the space labeled Finished Family Tree.
4. Each player takes a turn rolling the dice (not included) and moves the appropriate amount of spaces.
5. If a player lands on the blue or red spaces, they collect the appropriate card for that space.
6. If a player lands on the Family History Knowledge space, they must draw a card from the Family History Knowledge deck.
7. If a player lands on the Family Reunion space, they must draw a card from the Family Reunion deck.
8. If a player lands on either the Birth Certificate or Death Certificate spaces, they collect the appropriate card.
9. If a player lands on the You Lost 1 Ancestor space, the player must give up one ancestor.
10. Each time a player passes the GO! space, they collect one ancestor.
11. The game can be played two ways: (1) the first player to land on the Finished Family Tree space wins the game or (2) the game continues until one player has collected all the ancestors.
12. You can make additional copies of the blue and red cards to correspond with the amount of players.
